Important Notice About Your Tri Counties Bank Visa® Debit Card

Your Card is enabled with non-Visa debit transaction processing. This means you may use your Card on a PIN-Debit Network without using a PIN or with your PIN. Examples of the types of actions you may be required to make to initiate a Card transaction on a PIN-Debit Network include initiating a payment directly with the biller, possibly via telephone, Internet, or kiosk locations. The non-Visa Debit Network(s) for which such transactions are enabled is the Accel[®] network.

Examples of the types of actions that you may be required to make to initiate a transaction on your Card include:

- Signing a receipt
- Providing a Card number, expiration date and card verification code over the phone or the internet
- Swiping your Card through a point-of-sale (POS) terminal and entering your PIN or signing for your purchase

The provisions of your agreement with us relating only to Visa transactions are not applicable to transactions that are conducted on networks other than a Visa or Plus network, such as a PIN-Debit Network. This means that for transactions that are processed through networks other than Visa or Plus, the above Visa zero dollar liability protection rules do not apply, even if you did not have to enter a PIN when you conducted the transaction.
